Who
We
Are

Since 1992, we've been the largest manufacturer and exporter of decorative ceramics in South Asia, with a global footprint spanning over 50 countries. Our main export markets include the Scandinavian region, USA, Europe, and the Middle East. This longstanding legacy of excellence underscores our commitment to delivering quality and innovation to discerning customers worldwide.

As a testament to our dedication to quality and environmental responsibility, we hold ISO 9001:2015 and ISO 14001:2015 certifications. Upholding the highest standards in every aspect of our operations, we continue to push the boundaries of decorative ceramics, enriching homes and hospitality venues worldwide with our unparalleled creations.

Driven by our deep-rooted expertise in ceramics, we respond to the demands of renowned hotels and restaurants in Sri Lanka with our latest offering: a captivating collection of aesthetically pleasing dinnerware. This venture is a testament to our unwavering commitment to excellence and customer satisfaction.

At the core of our operations lies a state-of-the-art production facility covering over 40,000 square meters. Here, we meticulously craft each piece to exacting standards, ensuring precision and efficiency at every step of the manufacturing process. This facility serves as the backbone of our operations, enabling us to maintain our position as industry leaders.

Our collaborations with major global players such as Tchibo GmbH, H&M Home, NEXT UK, Boltze GmbH, Gilde-Handwerk, Pier 1, Country Baskets UK, Home Centre, and Zaha Hadid Designs UK further solidify our position in the industry. These partnerships expand our reach and amplify our impact on the global stage.

Complementing our export prowess is our formidable presence in the Sri Lankan Bathware industry under the banner of OTTO Bathware. With a network of over 500 dealers island-wide, our brand has become synonymous with quality and reliability in the local market.
